Providing a Stepping Stone into Community Life through Peer Mentoring, Group Activities and Courses

Secondary mental health care referral needed - please click [here \(goo.gl/9WrHk1\)](https://goo.gl/9WrHk1) to download a form

BYW is a FREE referral only service designed for people aged 18+ who are ready to move forward following a mental health diagnosis.

BYW is the Welsh translation of "alive" or "to live". The initialism stands for "Believe You Will" in English.

Our main ethos follows recovery principles and the key word to describe the project is empowerment. We have a genuine belief that everyone has the ability to live a meaningful and satisfying life. The project is all about people taking steps to achieve and maintain this at their own pace.

Along with lifestyle coaching - featured in the next section - we currently offer three forms of support that provide the opportunity to set and achieve personal goals in an informal and encouraging setting.

Peer Mentoring

A team of trained peer mentors will provide one-to-one support. These mentors have their own lived experience of mental health and provide an opportunity for people to open up about their own situation in a safe and confidential environment.

These sessions generally take place at the Heddfan Unit at Wrexham Maelor Hospital.

Group Activities and Courses

Our activities and courses aim to help people (over 18) to be active meet others and gain confidence. They are designed to aid the recovery process, drawing on the insight that mental wellbeing is closely linked to physical activity, recreation and social inclusion.

We warmly welcome new people to all of our activities and no previous experience is necessary.

Please note: *There is currently a 10-12 week waiting list for this service. Our activities are potentially subject to change so we advise you to telephone the office to confirm your attendance or find out more information in advance.*
