

Our Services - Updated September 2020

⚠ IMPORTANT INFORMATION ⚠

Advance Brighter Futures (ABF) is committed to provide the best support we can while following the [government guidance](#) during this uncertain climate.

It is okay to feel low, worried or anxious, or concerned about your finances, your health or those close to you. Everyone reacts in their own way to challenging events and uncertainty. It is important to remember that following the government guidelines may be difficult, but you are helping to protect yourself and others by doing it.

As a result of these unprecedented times, we have adapted, and will continue to adapt, our services for the foreseeable future. We are still accepting referrals and want to reassure you that we can still be contacted by telephone or email.

You can keep updated by signing up to our [mailing list](#), or visiting [Facebook](#), [Twitter](#) or our [website](#). We predominately continue to provide support by telephone, social media and video conferencing (with options to do so by video, audio, or both).

We are looking to gradually reopen the building and anybody who is waiting for face-to-face support with us will be contacted over the next month.

All of the services are clearly labelled with the correct admission criteria but please call **01978 364777** or email info@abfwxm.co.uk if you require further clarification or more information.

Providing a Stepping Stone into Community Life through Group Activities and Phone Support

Primary or secondary mental health care referral needed - please click [here \(bit.ly/2woBP7K\)](https://bit.ly/2woBP7K) to download a form

BYW is a FREE referral only service designed for people aged 18+ who are ready to move forward following a mental health diagnosis.

BYW is the Welsh translation of "alive" or "to live". The initialism stands for "Believe You Will" in English.

Our main ethos follows recovery principles and the key word to describe the project is empowerment. We have a genuine belief that everyone has the ability to live a meaningful and satisfying life. The project is all about people taking steps to achieve and maintain this at their own pace.

We currently offer a two pronged approach in providing the opportunity to set and achieve personal goals in an informal and encouraging setting. Along with lifestyle coaching - featured in the next section - our group activities and courses aim to help people (over 18) to be active, meet others and gain confidence. They are designed to aid the recovery process, drawing on the insight that mental wellbeing is closely linked to physical activity, recreation and social inclusion.

We warmly welcome new people to all of our activities and no previous experience is necessary.

Please note: *Due to the COVID guidelines, you will need to contact our offices by emailing or phoning beforehand to confirm your attendance at group activities in advance. We will then provide you with some COVID specific information which will be reinforced by our staff before each session.*

Telephone Check-in Support

This service is for existing and new referrals who would prefer to wait for face-to-face lifestyle coaching or our group activities to resume, but who are unable to access our HALO project due to not having an internet connection.

Weekly 15 minute phone check-ins on a weekday to suit you.

Please note: Face-to-face appointments will be introduced incrementally in order to avoid high volume or density at our premises so our waiting list will be longer than for virtual meetings. Our one-to-one lifestyle coaching sessions help participants make positive changes to their lives and usually consist of hourly sessions over 6 weeks*.

The service is for people who are ready to engage in pursuing recovery-oriented goals and is tailored to individual needs. It is future-oriented, as opposed to diagnosing the past, and aims to sustain recovery from mental health problems and improve overall wellbeing.

Participants may focus on different areas like improving self-esteem, managing mental health and developing social networks. Signposting is also a big part of this service and our lifestyle coaches can suggest other resources to aid recovery.

To find out more, please call **01978 364777** or email info@abfwxm.co.uk.

** Number of sessions can be extended if it is mutually agreed that further progress would prove beneficial to the participant's independence.*
